
DEAL GOLF AND
COUNTRY CLUB
DEAL, NEW JERSEY
18 HOLE PRIVATE GOLF COURSE

The Deal Golf & Country Club celebrated its centennial in 1998. Over the years many prominent players have come from Deal or played there in important amateur and professional events. In that time the course never engaged in a restoration or renovation program. The bunkers have become worn and misshaped, and many drainage problems existed due to the site conditions, and the limited attention given these details during the original construction.

Kelly Blake Moran Golf Course Architects completed a master plan of improvements for the total course.

Implementation of the plan began in 2000 and was mostly completed by 2003.
